- MongoDB

- Handlebars JS
- Firebase
- HTML5
- CSS3
- Bootstrap
- MVC
- VS Code

- Microsoft Office
- Adobe Photoshop CS6
- Adobe Illustrator   CS6
- Fully Bilingual in English/Spanish

PROJECTS

Vendor-Booker
https://github.com/alexisyepes/project3 | **https://idiaz-vendorbooker.herokuapp.com/**
Platform for small business
This React App allows small business owners to add, modify, and delete services. Clients can also login and book appointments. Any kind of business may fit in this framework, and a real business was used during this project. This project had 4 collaborators and my main role was to handle the Authentication process using ReduxJs and Firebase Auth Services.

Event-Planner
https://github.com/christopherdonner/eventPlanner | **https://github.com/alexisyepes/eventPlanner**
Event Management App
Event Planner is a web server with registered API endpoints, pushing dynamically built html from handlebar templates with SQL data. This project had two collaborators, and my main role was to design and structure the Event creation as well as the whole layout of the website using the MVC pattern.

Flip.Image
https://github.com/alexisyepes/MemoryGame | **https://juanidiaz.github.io/MemoryGame/**
Memory Card Game with super hero images
This Memory Card Game allows the player to see random characters on the cards while matching pairs.
This project had 3 collaborators and I was in charge of implementing two third party APIs for the images and flags, as well as the design and inclusion of Firebase collections for the Leaderboard.

EXPERIENCE

– *Amazing Pet Grooming* **– (Owner)** Milton, ON **2012 - Present**

- Marketing
- Graphic design
- Database maintenance
- Website updates
- Customer service solutions
- Offer creations

– *Modatek Systems* **– (Material Handler)** Milton, ON **2015 – Present**

- Provide support for production team members throughout the plant using a forklift
- Train new workers in the Materials Department
- Assist team leaders with sorts and other tasks
